UPDATED, ANATOMIC DESIGN.

Our updated design not only looks better; we have developed a world-class boot that is warmer, more comfortable and has a better grip than ever before!

CLI-TECH is a unique technology that stands for Comfort Lightness Insulation Technology – a formula that makes a revolutionary difference in tech-wear. The unique, advanced formula encapsulating millions of air bubbles, combined with latest technology, creates extreme insulation and lightness, while being waterproof and strengthens the overall performance. CLI-TECH was developed by Northern expertise and tested in the roughest environment. It guarantees high end quality and long-lasting comfort.

COMFORT.

CLI-TECH enables Polyver Sweden to produce what we think is the most comfortable boot on the market. You get a boot with great grip and ergonomics. Some of our users even forget to take them off.

LIGHTNESS.

With CLI-TECH, we are able to make our flexible boots "light as a feather". Outdoor enthusiasts from all over the world speak about the difference that the lightness makes, enabling you to enjoy your surroundings even more.

INSULATION.

CLI-TECH makes it possible for us at Polyver Sweden to offer you a truly insulated and waterproof boot that keeps your feet warm and dry, no matter what. The unique formula works as a thermal layer, which gives you a sensational cosy and warm feeling – all day long.

CLI-TECH.

With CLI-TECH's Comfort, Lightness and Insulation Technology, we are able to produce waterproof boots that will keep you warm and comfortable all day long so that you can live your life without boundaries – in whatever weather.
